* Topics will be presented in a poster session format. Please arrive any time between 6:00 and 7:30 PM to discuss topics with project scientists and engineers.

A meeting flyer was also mailed to everyone on the Restoration Advisory Board (RAB) mailing list.

Meeting Format and Content

The March 2019 RAB meeting was presented in a poster session format to provide an opportunity for community members to engage in an informal dialogue with project team members.

Presentation boards and a continuous loop PowerPoint presentation were on display at the RAB meeting. Handouts were available for further information. Information presented included the following:

- The History of Herbicide Orange at NCBC Gulfport (posters)
- Off-Base Drinking Water Sampling (posters)
- Status of Construction of the Roller Compacted Concrete Cover on Sites 8 B&C (continuous loop PowerPoint presentation)
- Review of cleanup actions completed at NCBC Gulfport (continuous loop PowerPoint presentation)

Key Concerns Expressed by Community Members

Community members actively engaged in discussions with team members. One community member voiced concern about the location of the RAB meetings. Based on the location of some of the private drinking water wells, she felt that the meetings should be held in a location southeast of the base (e.g., Gaston Hewes Community Center).

Meeting Attendees

RAB Members:

Jimmy Crellin (Mississippi Department of Environmental Quality)

Joyce Shaw (RAB Member)

Philip Shaw (RAB Member)
